

KARTHIK M

Python Full Stack Developer

karthikanban912@gmail.com | 6383075553 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Python Full Stack Developer (Django) with hands-on experience building production-style web applications using Python, Django, Django REST Framework, React, and MySQL. Developed end-to-end solutions including a freelance FinTech credit-card payment platform, a role-based E-Commerce marketplace, and an ERP Management System with secure authentication, REST APIs, and role-based access control. Brings 3.4 years of enterprise software delivery experience at Wipro Technologies in the Banking and Finance domain, working with HTML5, CSS3, JavaScript, REST API integration, Agile/Scrum, and production support. Passionate about building secure, scalable web applications and seeking a Junior / Associate Python Full Stack (Django) Developer role.

TECHNICAL SKILLS

Backend: Python, Django, Django REST Framework (DRF), REST APIs, Django ORM, JWT Authentication, Serializers, Middleware

Frontend: React.js, React Router DOM, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, Tailwind CSS, Fetch API, async/await

Database: PostgreSQL, MySQL, SQL, Relational Schema Design, ORM Queries, Migrations

Testing & Tools: Postman, Git, GitHub, VS Code, Vite, Vercel

Concepts: RESTful API Design, CRUD, RBAC, Authentication, CORS, API Integration, MVC/MVT, Agile/Scrum, Production Support

PROFESSIONAL EXPERIENCE

Frontend Developer — Wipro Technologies, Bangalore, India

May 2022 – Aug 2025

Banking & Finance Domain | HTML5 · CSS3 · JavaScript · Bootstrap · REST APIs · Agile/Scrum

- Developed and maintained responsive UI components for banking applications handling policy management, customer data, and financial transactions; integrated frontend applications with backend REST APIs.
- Built and enhanced UI screens for financial data visualization and reporting dashboards on an internal finance system.
- Handled production incidents, service requests, and change implementations end-to-end through ServiceNow; performed root cause analysis and delivered permanent fixes within SLA requirements.
- Participated in Agile ceremonies including sprint planning, stand-ups, retrospectives, and UAT coordination across two-week sprint cycles.

SELECTED PROJECTS

Full Stack Job Portal | React.js · Django · DRF · PostgreSQL · Tailwind CSS · Fetch API · Postman

- Built a full-stack job portal enabling user registration, job browsing, job details, and job applications using React and Django REST Framework.
- Developed RESTful APIs with DRF and integrated them with React using the native Fetch API, async/await, and JSON request/response handling.
- Integrated PostgreSQL with Django and configured CORS Headers middleware for cross-origin communication between the React frontend and Django backend.

Secure Credit Card Payment Platform (Freelance Client Project) | React · Django REST Framework · MySQL · Postman · Tailwind CSS

- Building a fintech platform supporting credit-card-funded transfers to beneficiaries, family/friends, and worker salary payouts, plus payment history and KYC workflows.
- Developed the React frontend using Vite, Tailwind CSS, and React Router, including separate user and admin workflows.
- Testing Django REST Framework APIs for payments, beneficiaries, and KYC status using Postman.

Smart E-Commerce Platform — Role-Based Marketplace | Python · Django · DRF · MySQL · JWT · Bootstrap

- Designed a modular multi-app Django architecture supporting customer, seller, and delivery roles with JWT-based RBAC and separate dashboards.
- Built REST APIs for cart, order lifecycle, and inventory; implemented stock control and automated price calculation to reduce overselling risk.
- Deployed the application on PythonAnywhere using WSGI configuration and environment-based settings.

CAREER DEVELOPMENT

Python Full-Stack Developer Program — SDLC Skill Development Learning Centre | Sep 2025 – Feb 2026

Focused on Python, Django, Django REST Framework, React, databases, and REST APIs; continued hands-on project development after program completion.

EDUCATION

B.E., Electrical and Electronics Engineering — Erode Sengunthar Engineering College, 2018–2022 (CGPA: 8.02)
